

Henderson Middle School Foundation

Electronic vote on funding request, June 28, 2018

Dr. Jackson has submitted the following request for an electronic vote for \$860 for STEM posters to be distributed school-wide.

Please reply with your vote (funds are needed before August).

More detail from Dr. Jackson:

In our efforts to roll-out a schoolwide STEM initiative, the workshop held on Monday, June 11, 2018, coupled with recommendations from the AdvancED STEM Review Team revealed that we needed to find one version of the Engineering Design Method and ensure that everyone is using the same one - schoolwide.

The one that we have agreed on is attached. It is sold by a company called Pitsco. We need 80 of these (\$10.75 each) for each teacher's classroom, hallways, front lobby, etc.

I have attached a link for you to review. <https://www.pitsco.com/Engineering-Design-Loop-Poster-Set>

Responses: Unanimous approval, abstention Frey Misghina, vote completed July 18, 2018
