

Henderson Middle School Foundation

Electronic vote on funding request, January 29<sup>th</sup>, 2019

We have an urgent request to fund \$420 to cover student entrance fees for the DeKalb Science fair. Please reply with your vote immediately, the fair is this weekend (Saturday).

Background: Each student is required to pay \$30, which was not known until recently. The school thought they could cover this fee from departmental funds, but have recently found out that it is not permitted to use school funds.

Because of the late notice of such a fee, the school is concerned that students may not be able to participate.

Disclaimer and note of conflict of interest from Angie Claussen: My son is one of the 14 students. I plan to donate \$30 to the foundation to cover my son's portion of this request as soon as it is approved. I believe that reducing the request to \$390 and sending my fee in separately will unnecessarily complicate the payment process.

Responses: Unanimous approval, quorum achieved January 29<sup>th</sup>, 2019

Postscript: Angie Claussen submitted \$30 to the HMS Foundation to cover the fee for Christopher Claussen. Overwatch Technology plans to reimburse the foundation to cover this expense by February.
